

WSE Shaker Head

The shaker head provides reliable tree shaking performance with minimal downtime.

Visibility & Controls

The center operator cab positions the driver directly in line with the shaker head, allowing for accurate tree alignment. All controls are mounted within easy reach to the right of the driver.

Three Level Deck

Adjustable in height and angle to suit all tree sizes, ensuring maximum product capture.

Power Without Compromise

Equipped with a 125 HP John Deere Final Tier 4 engine to meet and exceed all power requirements.

Bolt-on Deck Panels

Deck panels provide easy in-field patching and replacement for only the sections that are damaged, reducing downtime and cost.

Poclair Ground Drive

Three Poclair MSE/MGE-05 radial piston hydraulic motors provide maximum durability and performance with minimal maintenance.
